

Vous avez décidé de participer à un concours d'écriture original : vous devez imaginer la version moderne d'un conte traditionnel !

The *Prince* and the Smartphone

Once upon a time, there was a rich girl who lived with her parents in a large condo in New York City. She was a very lucky girl. She had good marks at school, a big bedroom where she could play and study. She also had lots of clothes, a beautiful electric guitar and the last generation technology (a computer, a smartphone, an mp3 player...). She had everything.

However, she was not happy. She didn't have many friends and she was very shy, especially with boys.

One evening, her parents gave a party and one of the guests came along with his son. She didn't know this boy. He looked sad and shy too.

She looked at him the whole evening and saw that he never stopped looking at his smartphone. 'Is this boy like me?' she thought.

Suddenly, a terrible storm came on, so the guests stayed for the night. It was an ideal situation for the girl to discover if this boy was a high-tech fan like her. So she asked her mother to hide her smartphone under his pillow. Then she texted him at midnight, when the boy was sleeping.

The next morning, the mother asked how he had slept. 'Oh, very well', said the boy, 'I had a very comfortable pillow and I had beautiful dreams. I feel really good this morning!'

The daughter looked at her mother and smiled. He was the boy she was looking for! They became friends and the two of them lived happily ever after.

Preparing a set for our performance

1. **B2i** Open a Powerpoint presentation.
2. Click the Insert menu, then Photo album and choose a photo to use as the set for your story.
3. Click the Insert menu again and then Audio; choose the music you want to use during your sketch.
4. Save your document on an USB stick, name it "my story project".
5. Don't forget to bring your USB stick to your next lesson!
