

**Le futur vous préoccupe. Vous décidez d'écrire ou d'envoyer une vidéo aux plus grands représentants de la planète afin de leur soumettre un projet de société future.**

In Oneida...

- People will not be people but artificially created humanoids.
- People will be programmed to always tell the truth and be extremely polite with each other.
- Pain and fear will not exist.
- The unemployment rate will always be 0.
- The weather will be warm and sunny all year round.
- People will use time machines once a year and spend holidays in ancient Rome, for example.
- Oneidan people will travel by spaceships or simply by teletransportation.

## Making a short video

1. **B2i** Make a video presentation of your project using your mobile phone or your computer webcam.
2. Download the video on your computer and save it as "our future society\_your name".
3. If the format is not MP4, go to an online converter ([www.convertfiles.com](http://www.convertfiles.com), [www.convertissez.fr](http://www.convertissez.fr)) and convert your video to MP4 format.
4. Put your video on a USB stick, bring it to your next lesson to show the class.
